Change Your Zoom Background

Did you know you can change the Zoom background image on your computer? It is very easy and I will explain exactly how to do it in this article.

Note: you can change your background anytime OR when you are actually in a Zoom meeting. Pretty cool… huh!!! Using the Desktop App (anytime):

1-Click the Settings icon (I highlighted it with a red box).

2-Select “Background & Filters”
Change Your Zoom Background

3-Click an image

4-OR add your own image - Click the plus sign
Change Your Zoom Background

5-Choose image from any folder on your computer

6-Click the Red Circle to exit (I highlighted it upper left corner)
Change Your Zoom Background

Change your background *during a live Zoom meeting.*

1-Click zoom.us menu (red arrow) then Preferences

Steps 2 - 6 are the same as above.
